

TheChildPsych
Empowering Young Minds

Emotional Literacy Support Assistant Training & Supervision

At the Child Psych, like Educators, our goal is to make a positive difference to young minds. It is widely recognised that children learn better and are happier in school if their emotional needs are met. Training teaching assistants to develop and deliver individualised support programmes can achieve this. We offer ELSA training and supervision overseen by Dr Pippa Busch, contributor to ELSA Network training resources alongside ELSA founder Sheila Burton.

★ **ELSA Network Registered Provider**

★ **Experienced Educational Psychologists**

"We immersed our staff in the ELSA training course, and it gave us a wonderful amount of new information and knowledge we'd never before consider... I'm excited to implement the work".

Educational Staff

How to become a registered ELSA?

Being an ELSA requires both training by a fully qualified Educational Psychologist, and regular, ongoing supervision.

Training at The Child Psych

6 days of in-person training spread across an academic year (1 per half term)
At The Child Psych Practice
All materials and refreshments provided.

Cost: £900 per person

Training at your venue

6 days of in-person training spread across an academic year (1 per half term). At a venue organised by the client and materials to be printed by client (files provided).

Cost: £12,000
for up to 30 attendees

Annual Online ELSA Supervision

2-hour group session each half term, building on ELSA training and sharing experiences with a community

Cost: £350 per annum

About The Child Psych

Led by Dr Pippa, The Child Psych is a growing practice in the heart of Berkhamsted. Our multi-disciplinary team specialise in ASD, nurture and attachment; we have years of experience carry out assessments, supporting academic achievement, and designing and implementing bespoke interventions. Collaborating with Educators, The Child Psych translates the latest research into classroom ready resources and career-enhancing development, with children at the heart. We believe that with our evidence-based methods and personalised support, we can help young people in each stage of their journey.
